MINI PROJECTS

E-LEARNING MANAGEMENT SYSTEM

- HTML, CSS, MySQL
- The project features user-friendly interfaces for student profiles, registration pages, and courses along with secure payment portal.
- Admin have the access to view the number of courses sold and students registered. They can manage the content by adding new courses, lessons, and lesson videos facilitating continuous improvements.

BOOK RECOMMENDATION SYSTEM

- Python, Jupyter, Flask, Bootstrap
- The system comprises two main features: a home page displaying the top 20 books and a recommend page suggesting similar books based on a user-inputted book title.
- The implementation of this project involves two recommendation techniques: popularity-based filtering and collaborative-based filtering.
